

REACH Compliance Statement

REACH Compliance

The European Union Commission in 2007 adopted the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulation in relation to the distribution and safe use of chemicals (EC#1907/2006).

We declare that Newstar operates in full compliance provided by EC#1907/2006 with particular focus to the provisions of the following articles:

Article 33- Communication of information regarding the substances in the items sold.

Article 67- relating to the restrictions listed in Annex XVII. Specifically, we confirm that our company:

- Is fully aware of the REACH regulation and its obligations.
- Will take all necessary measures required to ensure that all items sold are in compliance with the REACH regulation.
- Will ensure that its suppliers and vendors have taken all necessary measures to comply with the REACH regulation.
- Will provide all the information necessary to fulfill, if necessary, its obligations to communicate and/or inform on extremely problematic substances (SVHC) included in the "candidate list" of authorization, contained in the articles supplied.

Newstar Fastenings can confirm compliance for this regulation and to the best of our knowledge all items which are sold contain none of the Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of $\geq 0.1\%$ by weight.

If an item sold contains one or more of the Substances of Very High Concern (SVHC's) we will immediately communicate this and provide further details as a matter of urgency.

Confirmed

Richard Bury- Managing Director
